

GENESIS TILLAGE, INC.™

GEN-TILL II™

NORTH AMERICA'S FINEST SOIL AERATOR

PROUDLY MANUFACTURED IN U.S.A BY:

GENESIS TILLAGE, INC.™

www.genesistillage.com

OUR NEW ONE PIECE CAST DUCTILE IRON TINE SET ("GEN-TILL II" SEEN ABOVE) IS COMPUTER DESIGNED AND HEAT TREATED FOR IMPROVED PERFORMANCE & WEAR SUPERIOR TO OUR COMPETITION

What Aeration Does - Biologically.

- 1) Stimulates Aerobic Bacteria
- 2) Feeds Nitrogen into Soil Atmosphere
- 3) Improves Crop Residue Conversion to Humus
- 4) Increases Fertilizer Conversion to Plant Nutrients
- 5) Improves Plant Nutrient Mobility in the Root Zone
- 6) Stimulates Legume Nodule Activity

What Aeration Does - Mechanically

- 1) Breaks Up Clay/Silt Surface Layer Formed By Secondary Tillage
- 2) Produces Fracture Forces with Lateral Movement
- 3) Loosens Compacted Soil to 8" Depth
- 4) Penetrates and Loosens Silt Layer
- 5) Conserves Soil Moisture; Increases Water In-soak Rate
- 6) Allows Soil Atmosphere Change - Reduces CO2 Concentration

COMPUTER DESIGNED **HEAVY DUTY** FRAMES, 'C' FLEX HANGERS, AND TINES & BEARINGS WILL GIVE SERVICE SUPERIOR TO ANY OF OUR COMPETITION. OUR MACHINES ARE **POWDER COATED** (NOT PAINTED) FOR GREATER PROTECTION & LONGER, MORE DURABLE FINISH LIFE.

GENESIS TILLAGE, INC.™
